LEXINGTON.

SATURDAY, FEB. 27, 1836.

The City Printers must exercise their
wonted patience. The illness of the
printer of the Gazette, from an accidental
wound in the hand, and the loss of some
of the workmen, who departed in search
of better situations, render us unable, to-
day, to give more than half a paper; yet
we can say to the City Printers, that due
courtesy shall be observed towards them,
in due time—and we apprehend, from
the number of communications received,
that our correspondents will relieve us
from much further trouble on the sub-
ject of the Charter. But we again ask
the City Printers, and, on this subject,
their partizans of the Intelligencer, do
they intend to let their patrons know,
through the columns of their papers,
what is the late amendment to the City
Charter, forced upon the citizens of Lex-
ington, unasked by any, save nine office
holders?

The expunging resolutions have been
passed by the House of Delegates of
Virginia, by a large majority.

STATE CONVENTION.

This meeting, which took place on
Monday last, was attended by nearly
300 Delegates. Martin Van Buren and
R. M. Johnson were unanimously nomi-
nated for President and Vice President.
The following gentlemen are appointed
Electors:

- 1st District, Chittenden Lyon, of Caldwell
- 2d F. C. Sharp, of Christian.
- 3d Jas. B. Donaldson, of Warren.
- 4th Rhodes Garth, of Wayne.
- 5th Joseph Haskin, of Mercer.
- 6th Gen. Elias Barbee, of Green.
- 7th John Pope, of Washington.
- 8th Patrick H. Pope, of Jefferson.
- 9th Alexander Lackey, of Floyd.
- 10th Ben. Taylor, of Fayette.
- 11th Thomas Marshall, of Lewis.
- 12th Nicholas D. Coleman, of Mason.
- 13th Lewis Sanders, Sr. of Gallatin.

For the State at large—Gen. THOMP-
SON WARD, of Greenup, and W. T. WIL-
LIS, Esq. of Green.

Matthias Flournoy, Esq. of Fayette,
and Elijah Hise, Esq. of Logan county,
were unanimously nominated for Gov-
ernor and Lieutenant Governor, respec-
tively. The state of our paper for the pre-
sent week, will not allow us to be more
particular. We shall revert to it again.

From the New York Journal of Com-
merce we learn that the President's mes-
sage had reached Paris, and was received
with general satisfaction. It was sup-
posed the indemnity money would be
paid, on the strength of the message,
without waiting for the mediation.

The following is an extract of a letter
from Col. Austin, dated Nashville, and
which has been politely handed us for
publication: "The greatest enthusiasm
prevades all ranks and sexes here in fa-
vor of the cause of Texas. The Ladies
of Nashville have offered to furnish the
means of arming and transporting a
company of volunteers to Texas; it is
now raising and will soon be ready.—
This generous and disinterested act of
patriotism is worthy of imitation, and
will fill a bright page in the brilliant re-
cord of female magnanimity and devo-
tion to the cause of liberty, of philan-
thropy and religion. Such is the cause
of Texas, we are contending for the

right of self-government, and of wor-
shipping God according to the dictates of
our conscience. Our object is indepen-
dence. I hope that the great and patriot-
ic state of Kentucky will join their sister
states of the South in aiding us—a
fine field is presented for the enterprising.
This contest once over (and it will soon
be over) and Texas will rise and prosper
very rapidly."

At a large meeting of the petitioners
to the Legislature for relief against the
oppressions of the charter of the city of
Lexington,

JOHN PECK, Esq. was chosen as Chair-
man, and JOHN HENRY, as Secretary.

The following preamble and resolu-
tions were unanimously adopted:

Whereas, we are informed that our pe-
tition to the Honorable Legislature for a
repeal of the charter of the city of Lex-
ington, signed by more than six hundred
and fifty citizens, comprising, as we be-
lieve, a majority of the voters therein,
has been rejected by a committee of the
House of Representatives; as was also a
substitute proposed in our name and by
our authority, for a modification of said
charter, intended by us to accommodate
all difficulties by conciliating those who
might feel a dread of the consequences
of a total repeal, and which would at the
same time preserve good order, and re-
lieve us from a grievous oppression; and
whereas, as we believed, all the Repre-
sentatives from Fayette county.
And whereas, a proposition for an elec-
tion by the people, whether the charter
shall be repealed or not, is offered by said
committee and concurred in by said
House, so far as to be ordered to be en-
grossed and read a third time, and there-
fore, as we are informed, beyond the
stage for amendment, in which bill are
contained provisions subjecting the pe-
titioners to restrictions which, however
fairly designed by the H. of R. are cal-
culated to place the result in a great de-
gree in the control of our oppressors—
Therefore,

Resolved, That we prize as one of the
highest rights secured by our constitu-
tion, the privilege of peaceably petition-
ing our rulers for a redress of grievances,
a right which presupposes the duty of
rulers to hear, examine and decide upon
the truth of such petition, and if found
to be well grounded, to redress the griev-
ance complained of.

Resolved, That we consider the char-
ter of the city of Lexington oppressive
—in its creation of several unnecessary
and expensive offices, which, from their
heavy expense and the contingency of
the compensation attached to them, add
to the burdens of the people, and increase
the litigation of the city—in the exces-
sive costs allowed by said charter in the
city court, altogether disproportioned to
the importance of the business transac-
ted in it—and in the severity of the pun-
ishment adjudged against offenders,
whether guilty of immorality or disorder,
or only of a breach of police regulations;
which Draco like, consigns the poor man
to the workhouse to disgraceful punish-
ment, as well for throwing chips into the
streets as for assailing the person or prop-
erty of his neighbor.

Resolved, That from the speed and fa-
cility with which an important and radical
modification of our charter was made
at the present session of the Legislature,
by which a Mayor with high judicial
power, is placed over this city for life,
and that too, unsolicited by the citizens
and without their knowledge or consent,
and wholly irresponsible to them, we did
hope that a petition for repeal or modifi-
cation from at least a majority of the citi-
zens would be more promptly listened to,
and granted.

Resolved, That our agent be directed
to ask leave of The Honorable Legisla-
ture to withdraw the petition above named.

Resolved, That the foregoing preamble
and resolutions be signed by the
Chairman and Secretary, and published
for the information of the citizens.

JOHN PECK, Ch'm.

JOHN HENRY, Sec'y.

SMALL BANK NOTES.

An act passed the Legislature of Ken-
tucky on the 28th of February, 1835, to
take effect one year after its passage, im-
posing a fine of TEN DOLLARS (recoverable
before a justice of peace) on any person
or persons, or body corporate, who shall
pass, circulate or receive, or cause to be
passed, circulated or received, any bill
or note of a denomination less than five
dollars, which may have been, or may
hereafter be issued by any bank incor-
porated or unincorporated, or by any
private banker or bankers, or to receive,
or cause to be received, any such notes
or bills, in payment of any debt or de-
mand whatever; and payments made in
such notes or bills, shall not be deemed
or held as a discharge of the debt or de-
mand upon which they may be made, or
of any part thereof. By a proviso of the

act, notes of the Bank of the Common-
wealth and of the Old Bank of Kentucky,
and their branches, are excepted from the
operation of the act.

The above comprises the substance of
the act to prohibit the circulation of small
bank notes, which we publish for the in-
formation of the community. The act
will take effect on the 1st day of March.

TEXAS.

We have already apprized our readers
of the capture of San Antonio and the
surrender of the Mexican troops at that
place. All the accounts from that coun-
try concur in stating that the place was
taken by 300 Texans, when it is well
known that the Texian army encamped
before the place amounted to 7 or 800,
we had been at a loss to account for the
reason why only three hundred were en-
gaged. The following letter from the
brother of the editor of this paper will
throw some light upon the subject. It
also explains the reason why Col. Milam
was the leader in the attack upon that
place when it is well known he was not
the commander-in-chief of the Texian
forces.

Near Cahaba, Ala. 15th Jan. 1836.

DEAR BROTHER:—I have just arrived
at this place, direct from San Antonio,
Texas, and some few particulars in re-
lation to the storming and capture of that
place may not be altogether uninterest-
ing to you. History does not record a
circumstance of the same nature, and
perhaps never will another.

The Texian troops had been encamped
before San Antonio near two months
without effecting any thing of impor-
tance, save daily skirmishing, in which
nothing was lost and little gained. (I
must however make an exception of the
battle of Concepcion, in which Col. Jas.
W. Fannin commanded 92 men when
surprised by 400 Mexicans, who lost, as
has since been ascertained, 104 killed,
and since died of wounds, while the Tex-
ian loss was one man killed only.)

The Mexicans had 24 pieces of mount-
ed artillery and 6 unmounted when the
attack was made, which was brought on
in the following manner. After giving
them two months to fortify, the Texian
officers decided that it was impracticable
and impossible to carry the fort by storm,
and had issued orders for the whole army
to march at sun down, with the intention
of taking up winter quarters at La Ba-
hia, 100 miles to the southward and near
the sea coast. It was then about four o'-
clock, and from the noise in camp it was
apparent that a mutiny was on hand.—
At the time appointed to move, 300 men
marched out and declared their intention
of storming the fort that night. Many
of the officers made speeches against the
project, friends begged and entreated
others not to throw away their lives fool-
ishly, &c. &c. All was in vain; no per-
suasion had any weight; a great many
mounted their horses and left the camp,
expecting a total defeat. Next morning
just at daylight, the 300, firm to their
purpose, marched to the attack headed
by Col. Benjamin R. Milam, who had
been the principal in bringing about this
maneuver. The action was severe un-
til about ten o'clock; the Texans suc-
ceeded in getting possession of some
large stone houses, in which they re-
mained four days, keeping up a steady
fire day and night. On the fifth night an
assault was made on the fort itself, and
they succeeded in driving the enemy
therefrom and from the whole town, with
a considerable loss, while the Texian
loss was 4 men killed and 15 wounded.
Among the killed was Col. Milam, whose
loss is severely felt throughout Texas.
The Mexicans surrendered all their arms
and munitions of war, amounting to 30
pieces of artillery and a large number of
small arms, with a large amount of am-
munition for both. The Mexicans were
about 1200 strong, while the conquerors
were not exceeding 300. The main
body of Texans were lying within three
quarters of a mile, and refused to assist
as they expected defeat to the last min-
ute. There is now not an armed Mexi-
can in the country. The above state-
ment is strictly correct; I have a personal
knowledge of all the particulars, as I
have the honor of being known as one of
the 300. I have been in two other land
engagements, in one was shot through
the foot, &c., in both successful. Mexi-
cans can't stand the rifle.

I am now in this place on business,
and shall return to Texas in four days.
Your Brother, &c.

MUSTARD SEED.

EVERY Farmer, perhaps, has some ground
too rich for most vegetables. This is the
very best kind for growing the common small
black mustard. A dung hill, if well rotted, is
not too rich. It grows well where old buildings
have stood. A quarter half an acre of this sort
of ground would be well worth cultivating. This
much, the feeblest families, perhaps, could do.
It would probably, from the experiments I have
made, produce at the rate of thirty or forty bushels
an acre. It should be sown as early in the
spring as the ground can be worked, and when
ripe, reaped and laid in hands, and two or three
days sun will dry it sufficiently for thrashing.
This should be done on a sheet laid on the ground
or on a thick sod of grass. Care must be taken
to sift the trash out before it is put into the
wind, or it will carry the seed away. When well
cleaned and dried, it will meet with ready sale
at about \$3 a bushel, by applying to
N. BURROWES.

Twelve years old, this grass—a beautiful blood

ed racer was bred

of New York and foal-
ed in May, 1834; he
was got by Duroc, sire of Eclipse; his dam by the
imported horse Light Infantry; his grandam by old
Messenger, his great grandam by Bashaw, his g.
grandam by True Briton, his g. g. grandam

PERFORMANCE.

On the Union Course, L. I., when 3 years old,
Sir Lovell ran a match against a Drieddie
Colt of C. R. Golden's, three mile heats, and won,
distancing his antagonist—when 4 years old he
won the two mile sweepstake, over the Union
Course, L. I. beating five good horses. In the fall
of the same year he was trained again, and ran
or the \$200 purse, two mile heats, over the Pough-
keepsie course, which he won with ease, beating
Hotspur, Timoleon, and a number of other cele-
brated horses. The night following, his groom
foundered him—notwithstanding, on the last day
of the same month, (October) he won a sweep-
stake, 3 mile heats, over the New Market Course,
L. I., beating Grey Roman (out of Ariel's dam)
and many others. In the winter following, he was
sold to a gentleman from Pennsylvania, and was to
be delivered to him on the 1st of April, in cover-
ing condition—the contract not having been made
good on the part of the purchaser, he was again
put in training and commenced walking. On the
6th of April, at the time he commenced training,
he was very fleshy—notwithstanding, on the 12th
day of May following, he was entered for the \$400
purse, three mile heats, which he won with ease,
carrying 122lbs. beating the famous mare Ariel,
Bachelor and Yankee Maid—time, first heat 5m.
47s.—second heat, 5m. 53s. Taking into con-
sideration the very short time he had been in train-
ing (five weeks) this race was considered as one
of the best ever run on Long Island, and at once
stamped Sir LOVELL as a first rate race horse.
In the ensuing week, I ran with Ariel for the
\$500 purse, four mile heats, at Poughkeepsie,
where he won the first heat in great time, 7m.
50s. considering the state of the course, which
was very heavy—the second heat he led the mare
three and three quarter miles, when she passed
him and won the heat—he was then withdrawn.
There was no jockeying at the time; it was owing
to his want of sufficient training that he lost the
race. Two days afterwards, over the same
course, he took the \$200 purse—two mile heats—
beating Lady Hunter, Maryland Eclipse, and
Malton—time, first heat 3m. 51s., carrying 121 lbs.
This is great time, considering Lovell run eight
miles two days previous, but it was soon forgotten
in his superior and almost unequalled time, time
of the second heat—which was contested inch by
inch in the most spirited style by Sir Lovell and
Lady Hunter, and won by Lovell in 3m. 46s.—
When it is known that the course is eight feet over
weights, this heat will doubtless be recorded as
one of the quickest in the annals of racing. In
the following week, he ran a Match Race of two
mile heats, over the Union Course, L. I., for \$6,
000, with the well known mare Ironette, in which
he won the first heat in 3m. 45s. and in the next,
distanced his opponents in 3m. 45s. This run-
ning four races in the short space of two weeks and
only losing a single heat—further comment is un-
necessary.

IN presenting a Medical Journal to an enlightened public, in which we propose advocating a reformation in the science of Medicine, it becomes us to fairly and candidly state the motives which actuate us, and the course we intend to pursue as editors.

As the very favorable reception of the Reformed Practice of Medicine, the success and encouragement of its adherents in every section of the country in which it has been introduced, its superiority over every other denomination of Botanic Practice—having not only excited the jealousy of those who use vegetable medicines, (known by the title of Thompsonians or Steam Doctors) but also the envy and jealousy of those who use calomel, Tartar Emetic, Corrosive Sublimite, &c., and the last named have undertaken to misrepresent and sink us on the premises assumed by Thompsonians, instead of our own—we have considered it necessary in order to defend the Reformed Practice, to offer to the public the proposed journal.

We are aware of the difficulties to be encountered and the obstacles generally thrown in the way of those who undertake to reform an established custom, or who propose the least variation from preconceived and favorite opinions. We know there are some individuals in all countries who naturally dread any change from what they have been accustomed to, and who shut their eyes and turn a deaf ear to all evidence that tends to convince them of their error. But when we reflect that we live in an age of investigation and improvement, surrounded by a free, enlightened and liberal minded people, most of whom readily perceive what is calculated to be beneficial to mankind and disposed to encourage the spirit of genius and improvement—we feel much encouraged, and confidently believe that we will receive a liberal assistance from our fellow citizens, in endeavoring to effect a reformation in the healing art. Whilst improvements have been making in the different arts and sciences, we ask has the science of Medicine been improved so as to lessen the quantity of human sickness? We answer, it has not. What then can be the reason? The sciences of Anatomy, Chemistry, Physiology, &c. have certainly been greatly improved, and yet diseases are more numerous and as fatal as they ever were. It is because Physicians, particularly in the last fifty years, recommend and use unnatural mineral preparations, such as Arsenic, Calomel, Blue Pill, Tartar Emetic, Corrosive Sublimite, &c., which they almost exclusively rely upon in the treatment of all diseases, the result of which has been that the science of Medical Botany has been most wretchedly neglected, many valuable citizens lost, and those who survive the effect of such poisons doomed to drag out a miserable existence with injured and frequently broken constitutions. Let it not be supposed that we contend for ignorance, and that we are ignorant of the very essence of quackery. We advocate the absolute necessity of an intimate knowledge of Anatomy, Chemistry, Physiology, Medical Botany, and the other associate sciences, in which respect we differ from the other denominations of Botanic Physicians, and the most striking difference between our practice and the common mineral practice, is in the articles used as remedies—they relying on mineral, we on vegetable medicines, which difference is to us irreconcilable, and is the principal extraordinary reason in the healing art, in which we propose a reformation.

In order to make our journal generally interesting, we will publish an accurate account of the composition and manner of making Calomel and the other different preparations of Mercury in use, also the whole list of mineral poisons that are given as remedies, and their antidotes. We believe that if people generally knew the ingredients and manner of action of these subtle poisons they would, they would use them.

Rules will be given for the prevention or disease and preservation of health.

The treatment of the diseases of women and children. It is an indisputable fact that many females are rendered feeble and nervous by even a moderate use of Calomel, the Blue Pill or some other disease-creating Mineral, and many children deprived of a sound constitution through life, by an unnatural and improper treatment.

We will repel charges already made against us as Reformers, and such others as may be made, and worthy of notice. We will in return communicate either for or against the Reformed practice will be cheerfully inserted, and if necessary commented upon.

We will publish an account of many valuable plants, the manner of using them, and the diseases to which they are applicable, in doing which we will expect to furnish our readers with a description of many vegetable productions that are too much neglected, and to which authors have not as yet ascribed their proper medicinal virtues.

Medical essays and the treatment of difficult and interesting cases will frequently find a place in our columns.

A due portion of our journal will be devoted to a defence of the Reformed practice of Medicine, and strictures on the common mineral practice.

TERMS.

The Western Medical Reformer will be published on a medium sheet, in pamphlet form, containing 16 columns, two columns to each page, and will be issued on the 1st Monday of each month, at the low price of two dollars per annum, payable on the receipt of the first number. Any person who will obtain five subscribers and become responsible for the same, will be entitled to the sixth copy gratis, or if a company of six remit ten dollars, a copy will be sent to each one.

Editors of newspapers who will insert this Prospectus, (and state under it that they will receive subscriptions at their offices,) by forwarding a copy containing the same, will be entitled to a copy of our journal for one year.

Every member of the Reformed Medical Society of the United States is considered an agent for our journal, and requested to act in that capacity. All communications must be addressed to the Editors, Drs. DAY & HARRIS, Richmond, Kentucky—post-paid.

The first number will be issued on the 1st Monday in May, if a sufficient number of subscribers be obtained.

CAREY'S LIBRARY OF CHOICE LITERATURE.

TO say that this is a reading age, implies a desire for instruction, and the means to gratify that desire. On the first point, all are agreed; on the second, there is diversity both of opinion and of practice. We have newspapers, magazines, reviews; in fine, pamphlets of all sizes, on nearly all subjects, which have severely tried the classes of readers and supporters. And yet, yet, yet, the mass of intellectual supply, more are still needed. In addition to the reviews of the day, and passing notices of books, the people, in large numbers, in all parts of our great republic, crave the possession of the books themselves, and details, beyond mere passing allusion, of the progress of discovery in art and science. But though it is so easy to ascertain and express their wants, it is not so easy to gratify them. Expense, distance from the sources of literature, engaging occupations which prevent personal application or even messages to libraries and booksellers, are so many causes to keep people away from the feast of reason, and the enjoyment of the coveted literary aliment. It is the aim of the publishers of the Library to obviate these difficulties, and to enable every individual, at a small cost and without any personal effort, to obtain for his own use and that of his favored friends or family, valuable works, complete, on all the branches of useful and popular literature, and that in a form well adapted to the comfort of the reader.

The charm of variety, as far as it is compatible with morality and good taste, will be held constantly in view in conducting the Library, to fill the pages of which, the current literature of Great Britain, in all its various departments of Biography, History, Travels, Novels and Poetry, shall be freely put under contribution. With perchance, occasional exceptions, it is intended to give entire works, which shall be selected for publication. When circumstances authorize the measure, recourse will be had to the literary stores of Continental Europe and translations made from French, Italian, or German, as the case may be.

Whilst the body of the work will be a reprint, or at times a translation of entire volumes, the cover will exhibit the miscellaneous character of a Magazine, and consist of sketches of men and things, and notices of novelties in literature and the arts, throughout the civilized world. A full and regular supply of the literary monthly and hebdomadical journals of Great Britain and Ireland, in addition to home periodicals of a similar character, cannot fail to provide ample materials for this part of our work.

The resources and extensive correspondence of the publishers, are the best guarantee for the continuance of the enterprise in which they are now about to embark, as well as for the abundance of the materials to give it value in the eyes of the public. As far as judicious selection and arrangement are concerned, readers will, it is hoped, have some reason to be fully satisfied, as the editor of the Library is not a stranger to them, but has more than once obtained their favorable suffrages for his past literary efforts.

TERMS.

The work will be published in weekly numbers. In stitched covers, each number containing twenty imperial octavo pages, with double columns, making two volumes annually, of more than 520 octavo pages, each volume; and at the expiration of every six months, subscribers will be furnished with a handsome title page and table of contents. The whole amount of matter furnished in a single year, will be equal to more than forty volumes of the common sized English duodecimo books, the cost of which will be at least ten times the price of a year's subscription to the "Library." The paper upon which the Library will be printed, will be of the finest quality used for book-work, and of a size admirably adapted for binding. As the type will be entirely new, and of a neat appearance, every six months, subscribers will be furnished with a handsome title page and table of contents. Boarding School.

HAVING procured a large and convenient house, near the residence of Mr. JACOB HUGHES, the subscriber will, on the 23d February ensuing, open a BOARDING SCHOOL, FOR YOUNG LADIES, in which will be taught all the branches of a polite, refined and complete English Education. A new system of instruction will be adopted; one that a short experience has proved to be in strict conformity with the philosophy of the Human Mind; and one that, even partially practised, has been attended with much success. This system contemplates particularly the strengthening and enlarging the mind; a part of education of all others the most important, and to which, it must be acknowledged, the common system, even in the highest schools, give no attention. Common position and the art of Conversation, will receive especial attention; it being of little use to be intelligent without being able to use intelligence to advantage. A few small boys will be received, but will be so managed as not to interfere with the other department of the School.

PETER SIMPLE NOVELS.

AT 37 CENTS EACH.
UNIFORM EDITION.

THE great and constantly increasing demand for the novels of Captain Marryat, has induced the subscriber to commence the publication of a new edition of his entire writings, in a new form, and at a reduced price. Several of his works that have not yet appeared in this country will be comprised in this series, which will, when completed, be the only uniform edition of his writings that has yet issued from the press.

The work will be published in semi-monthly numbers at 7½ cents per number. Each number complete in itself, and containing the whole of one of his works, equal to two duodecimo volumes; a title page to each number.

The whole series will be complete in eight numbers, and will cost a royal octavo volume containing nearly twelve hundred pages for three dollars.

List of works to be comprised in this edition:
Frank Midway, or the Naval Officer.
Newton Foster, or the Merchant Service.
King's Own.
Peter Simple, or the Adventures of a Midshipman.

Jacob Faithful.
Pacha of Many Tales.
Japhet in Search of his Father.
Naval and Military Sketches.

The first number will positively be issued early in the month, and the whole will be completed by the last of April.

The work will be stereotyped, and any of the numbers can be had separate, if desired.

They will be sent by post to any part of the Union, so packed as to defy the friction of the mails. Postage under 100 miles 14 cents per sheet, over 100 miles, 24 cents.

I am almost useless for the subscriber to remark that this is the cheapest work ever offered. The simple fact of the number of pages being over 12 hundred, and the price only three dollars, speaks for itself. The public may look upon this as the commencement of an enterprise to furnish them with works of fiction by the most celebrated authors, printed in a beautiful manner, on fine paper, at a price that will at once defy competition, and place it in the power of every person to possess a library of novels at an extremely low rate. The advantage of transmission by mail is one that will not be overlooked by non-residents of large cities. The publisher thinks, and he presumes that the public will agree with him, that it is better to issue the works of each author, in series, at a stated price, than to publish a continuous work at so much per annum; for by this arrangement they may subscribe to the works of one author and reject another. Not being obliged to pay for that which they do not want.

A remittance of \$10 will command four copies of the work. Single subscription 3 dollars.

Subscribers to the Lady's Book, or those wishing to become subscribers, will be furnished with the Lady's Book one year, and the set of Novels, for five dollars, in advance, postage paid. Single subscriptions to either work, three dollars.

FOR SALE.

A half league of land, in Austin's Colony, Texas, very eligibly situated on Dick's or Dickson's Creek, a navigable stream, emptying into Galveston Bay, at whose mouth the town of Powhatan is laid out, commanding a fine harbor. The above tract was selected for the proprietor by persons familiar with every league in the Colony—it consists of a tract of prairie and timbered land, and is the finest that can be, for the cultivation of Cotton or Sugar, all conditions having been fulfilled, and expenses paid. It is recommended to persons disposed to emigrate to Texas, as saving much trouble, expense and delay. Inquire at this office.
